

Ordering Library Materials to Support Your Classes Subject Librarians at College of Lake County Library

The Librarian Instructors at College of Lake County are generalists who share instructional responsibilities for all disciplines and subjects.

However, each of the Reference Librarians has responsibility for maintaining several collections of materials. These are indicated below.

You may work with the subject specialist to develop collections that support the courses you are teaching by recommending materials for purchase. To do so, you may contact them directly through their phone, email, or in person. In addition, any librarian at the Reference Desk can route these requests to the appropriate person.

We also invite you to visit us to view the materials we have to support your courses. Contact the subject librarian to schedule a mutually convenient time for your visit, or use our library catalog to peruse your subject online from your office or home.

Subject	Librarian contact e-mail	Telephone	Collection Location & Call No. Range
